EpisodeName: Implement Azure Information Protection Policies
Description: Adam and Wes discuss the steps necessary to help you successfully implement Azure Information Protection policies.

Implement Azure Information Protection Policies

Manage Microsoft 365 Governance and Compliance (35-40%)

Implement Azure Information Protection (AIP)
• Plan AIP Solution
• Plan for Deployment On-Prem Rights Management Connector
• Plan for Windows Information Protection (WIP) Implementation
• Plan for Classification Labeling
• Configure Information Rights Management (IRM) for Workloads
• Configure Super User
• Deploy AIP Clients
• Implement Azure Information Protection Policies
• Implement AIP Tenant Key

==========

Implement Azure Information Protection Policies

NOTE: A "scoped policy" is one that is DISTINCT TO A DEPARTMENT OR GROUP.

NOTE: When you have multiple policies they are applied in order, and the last policy in the list wins.

NOTE: Make sure to take a look at the AIP Scanner before the exam !!!
